Target Fire Protection are a family-run business with over 25 years of experience offering unrivalled fire safety services throughout the Northwest of England and beyond.

From our humble beginning we have operated as a service company refilling and testing extinguishers to help our customers stay compliant. We can provide a supply only service, however our main priority is to look after the units you have on site, which helps reduce waste and as a good consequence helps protect our environment.

From our beginnings serving local areas around our base in Rochdale, While we are now very much a national company, as a family-run business, we pride ourselves on maintaining that personable, customer-first mindset. This is central to all our operations, and allows us to deliver a unique, tailored service to every organisation that requires our expertise. We ensure that we still deliver levels of service to match British Standards, with a customer focus and quick response times. This level of service is offered Nationwide no matter what task you require Target Fire Protection to look after – extinguishers, fire alarms, fire training, hydrants, or dry risers! fully accredited and carry all major accreditations including BAFE, Construction Line, Safe Contractor and ISO 9001 & ISO 14001

We provide you with all the information on what work we have carried out in our Customer Portal that provides you with an up-to-date asset list and reports. All of our engineers use handheld PDA's to store this information.
